Nuria

Some updated information:

1) MLive story from yesterday, Aug. 30  
[http://www.mlive.com/news/index.ssf/2017/08/wolverine\\_pfas\\_house\\_st\\_dump.html](http://www.mlive.com/news/index.ssf/2017/08/wolverine_pfas_house_st_dump.html)

2) Local Health Dept. is sponsoring a public meeting on Sept. 12 regarding the Wolverine investigation of private wells. MDHHS and MDEQ will likely be attending.

Here is what we have heard recently about the results of PFAS sampling of private wells in the Rockford, MI area:

- 7 out of 19 private wells tested exceed the EPA Lifetime Health Advisory level (70 ppt PFOA + PFOS)
- One home has the highest PFOA+PFOS drinking water well in Michigan at 27,600 ppt PFOA+PFOS (36,258 ppt total PFAS)
- MDEQ is re-sampling wells
- PRP has provided bottled water and is setting up certified filters

I am also attaching a recent news article on the site.
